

# Chemicals

**The Chemicals Division** provides quality products and information to meet the needs of our customers. It is a task the Division can undertake only because of expertise in performance chemicals and life sciences, along with its global networks.

In the wide-ranging chemicals market, we provide products (nitrocellulose, engineering plastics materials, and active ingredients and intermediates for pharmaceuticals) and processed goods (diluted isocyanate packages) from our affiliates, as well as raw materials sourced from manufacturers around the world.

We remain steadfast in our commitment to our customers through our innovative service as a group of specialists in chemical business development.

**Yoshiya Oda**  
General Manager  
Chemicals Div.

# Chemicals Division
