### Notice Concerning Revision of Dividend Forecast

Inabata & Co., Ltd. (the “Company”) hereby announces that it has revised the dividend forecast for the fiscal year ending March 31, 2016, which was released on November 9, 2015. Details are as follows.

#### 1. Reason for the revision

With a view to placing an even greater emphasis on returning profits to shareholders and carrying out shareholder returns with more clarity, the Company has adopted a standard for the total amount of shareholder returns consisting of the amount of dividends combined with the amount of treasury shares acquired. The Company will target a total return ratio (\*) that is mainly in the range of approximately 30% to 35%, and determine it based on comprehensive judgments that take into account such considerations as medium- and long-term investment for future enhancement of corporate value.

(\*) Total return ratio = (amount of dividends + amount of treasury shares acquired) ÷ consolidated net income × 100

Based on recent trends in its operating results, the Company has revised the forecast for the year-end dividend per share upward from ¥17 to ¥20.

As a result, the annual dividend per share is projected to be ¥36 including the interim dividend of ¥16.
